

FY 2011 Enforcement and Compliance Report Errata

Correction:

On page 54 the Purpose section for the Land Restoration Program should be corrected to read as follows.

PURPOSE

The Land Restoration Program (LRP) protects public health and the environment by identifying sites that are, or potentially are, contaminated by controlled hazardous substances. Until 1997, Maryland placed sites where hazardous substances were released or possibly released on the State Master List (see Appendix I) and in the Disposal Site Registry. The sites were prioritized for remedial activities. Since 1997, newly identified sites are recorded on the State Non-Master List. The Non-Master List sites can be found on the Department's web site at <http://www.mde.state.md.us/programs/Land/MarylandBrownfieldVCP/LRPSites/Pages/LRP.aspx>, checking the box for Non-Master List and clicking on the submit button.
